

## HP LIFE

### HP LIFE + World YMCA

#### **Accelerating digital equity for underserved communities around the world.**

HP LIFE is a global training program available both online and offline via Learning Equality's Kolibri platform.

HP LIFE gives people all over the world the opportunity to build skills for the future—whether they want to start or grow their own business, enter the workforce or secure a better job—by providing access to free, accessible IT and business skills training courses in eight languages.

HP would like to partner with the YMCA Movement as part of its newly announced commitment to accelerate digital equity and improve learning outcomes for 150 million people by 2030. Goals are to improve economic empowerment, healthcare, and education.

The partnership will be between the HP Foundation and its HP LIFE programme and the World Alliance of YMCAs.

Our programs and partnerships enable people all over the world to bring their dreams of economic independence to life.

### **About Our Courses**

We collaborate with our partners and HP experts around the world to create highly relevant, business-focused courses that are free to use for everyone, everywhere. The 32+ self-paced courses are modular, interactive, and full of information and practical exercises that enable you to develop the skills you need for a successful future, at a time and place that suits you. Courses are available in Arabic, Bahasa Indonesia, Chinese, English, French, Hindi, Portuguese, and Spanish.

Out of 32 courses you can select 3 courses. We will prepare a customized certificate with organization ED signatures and stamps. Once you have finished those courses please send us the certificates via e-mail ([ymcaethiopiahplife@ethioymca.org](mailto:ymcaethiopiahplife@ethioymca.org)) so that we can print them for you. When it is ready you can collect the certificates at the YMCA Ethiopia Nation Office. However it is possible to take as many courses as you wish. Please follow the instructions below
